

RESIDENTIAL SERVICE PLANS

Parkway Oil Co. Inc.

30 STAGG STREET STRATFORD, CT 06615
203-367-0083

WWW.PARKWAYOIL.COM

Residential service plans are issued for domestic type oil burners only under 25 years old, WE GIVE 24 HOUR EMERGENCY SERVICE ON LEGITIMATE NO HEAT CALL ONLY. (Noises, odor, and no hot water(unless you have the hot water heater plan) are not considered an emergency and will be answered at owner's expense if after 4p.m., weekends and holidays.)

- Each service plan Includes one(1) cleaning per year done between May 1st and September 30th which consist of changing the nozzle, pump strainer, oil filter cartridge, vacuuming the unit and smoke pipe if necessary, efficiency test, plus a complete and thorough inspection of the heating system. On stream systems, low water cut-off automatic water feeder will be flushed and tested when oil burner is serviced.
- This service plan does not cover labor or materials for electrical switches in the OFF position, thermostats turned down or dead batteries, boilers not filled to operating level, automatic water feeder or, low water cut off malfunction, blown fuses or tripped circuit breaker or empty oil tanks (running out of oil), flooded cellars, water damage, fire, lightning, unattended houses, power surges or other abnormal conditions. Parkway Oil will not be liable for any damage resulting from these conditions. We reserve the right to reject any oil burner equipment from service plan coverage. Service may be provided by a licensed sub-contractor engaged by Parkway Oil Company, Inc.
- This service plan may be terminated by either party at any time. Should this contract be terminated, there will be no refund. Service plan may be transferred if house is sold to new owner.
- This service plan is only available to customers of Parkway Oil Company, Inc. Customer must purchase all fuel deliveries from Parkway Oil Company, Inc.
- Customers represents that the oil storage tank does not have an overhead or bottom feed oil supply line.
- The obligation to furnish replacement parts is subject to availability from our normal sources of supply. Obsolete burner parts, motors and controls not so available shall limit the obligation of this agreement. Modern equipment will be installed at list prices.
- The equipment covered by this agreement is subject to inspection and approval. At our option the inspection may be waived. Any repairs required initially to put equipment in acceptable condition will be charged separately.
- Any part of the heating system controlling, storing, or transporting system air, water, or steam is not covered unless specifically listed in your service plan.
- Parkway Oil Company, Inc. will furnish each part listed (1 per year) below and labor to replace them if they are defective or worn from normal use only.
- If the service technician and/or office make a recommendation, it must be completed or contract will be void.

The service plan covers all parts listed (1 per year) and labor to install them for the plan you choose. Hot water makers, storage tanks, and air handlers with a heating coil and parts related will not be covered by any plan. All parts NOT LISTED in your plan and LABOR to install these parts are not covered and will be chargeable to the customer.
